Official Paper of Cochise Co.

TUESDAY, SEPTEMBER 5, 1899.

SAN FRANCISCO BIDS FOR TRADE.

The strongest firms in the city of San Francisco have formed a Manufacturers' and Wholesalers' League, and they have arranged with the railroads, including the Santa Fe and the Southern Pacific, to carry intending buyers to that city at half rates. The conditions exacted are very simple and business-like, and there is no obligation to buy, if the prices do not suit the buyer. The letter which the league has sent out to the trade reads as follows:

"The merchant receiving this will please consider it a personal invitation to himself, or his accredited buyer, from each and all the houses named herein, to visit San Francisco, under the arrangements made by the Manufacturers' and Wholesalers' League with the several transportation companies and on the dates and under the conditions specified, with the assurance on the part of the members of the league, that the goods they deal in will be sold at bed-rock prices, with an eye to securing their future and continuous trade, to establish which they are willing to make substantial and liberal concessions.

"We know that the merchants west of the Rocky mountains are constantly approached by commercial travelers from Chicago, New York and other eastern cities, depreciating San Francisco as a distributing center. If you will take advantage of our liberal offer and visit San Francisco the members of the league will conclusively prove to you that you can establish closer and more profitable relations with San Francisco wholesale dealers," etc.

The above is given for the benefit of those of our local merchants who may deem it advisable to take advantage of San Francisco's bid for their patronage.

In Washington news can be relied upon, Secretary Root is bossing the whole shooting match with all the ease of a West Pointer.

Dawson City is getting quite respectable. It recently had its first legal execution. It is said to have been a tripple affair—two Indians and one white man.

It was a wise yellow fader who made Dewey say, in answer to a question as to what he thought of the probability of future trouble with Germany over the Philippines: "It is impossible to foresee the unforeseeable."

The monied men of the present time prefer to loan money of public securities rather than business enterprises. This means that public securities are the favorites in the money market. The people are behind—in fact the taxpayer is the security.

A Texas paper says that, from present indications, it will not be long before poor people will have to stop eating meat, unless they raise it. Hogs have gone higher and beef has advanced from 2 to 4 cents. There has been no advance on rabbits, 'possums and horned frogs, and tamales are the same old price.

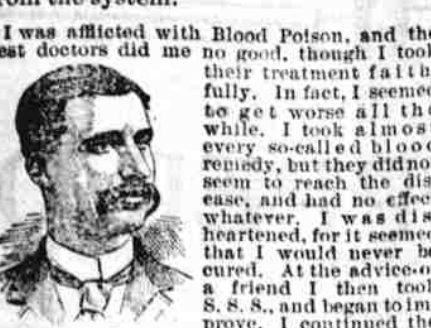

ALL signs point to a war in the Transvaal. The war, if it comes, will probably be short and bloody. The Boers are desperate, and the British have too large a stake to permit any sacrifice now. Like our own late war, there can be but one ending in the nature of things, and thus it appears to be a mad venture on the part of the Boers.

UNFORTUNATELY yellow fever has crept into New Orleans, and Health Officer Blunt has established a rigid quarantine against that port. Mobile and other cities have also quarantined against New Orleans. Let us hope that the quarantine will continue only during the actual prevalence of the disease, and will be administered with some discretion, not to kill off the best business now just picking up, or unduly inconvenience through travelers. The best quarantine against virulent disease is unscrupulous cleanliness. Keep your own city, town, or community clean, and the task of keeping out disease will be much simpler. Prevention is cheaper than cure.—El Paso Herald.

FOR SALE—One six-room house with bath and water connections; best location in town. Also one extra lot. Can rent house at \$3 per month. Inquire Otto Von Kanel. s27-tf

## Doctors Can't Cure It!

Contagious blood poison is absolutely beyond the skill of the doctors. They may dose a patient for years on their mercurial and potash remedies, but he will never be rid of the disease; on the other hand, his condition will grow steadily worse. S. S. S. is the only cure for this terrible affliction, because it is the only remedy which goes direct to the cause of the disease and forces it from the system.

I was afflicted with Blood Poison, and the best doctors did me no good, though I took their treatment faithfully. In fact, I seemed to get worse all the while. I took almost every so-called blood remedy, but they did not seem to reach the disease, and had no effect whatever. I was disheartened, for it seemed that I would never be cured. At the advice of a friend I then took S. S. S., and began to improve. I continued the medicine, and it cured me completely, building up my health and increasing my appetite. Although this was ten years ago, I have never yet had a sign of the disease to return.

It is like self-destruction to continue to take potash and mercury; besides totally destroying the digestion, they dry up the marrow in the bones, producing a stiffness and swelling of the joints, causing the hair to fall out, and completely wrecking the system.
